

LEARN TO READ THE FUTURE with **FORTUNE TELLING CARDS**

Shuffle the cards three times and have the person whose fortune is being told cut the deck once after each shuffle.

Lay the cards out face up on the table in four rows of eight cards each. Place two cards above the center of the layout and two below as shown in the diagram. The cards should face the person telling the fortune.

When a woman's fortune is being told, she is represented by the queen of hearts, Card No. 14, and the king is the man in whom she is most interested. When a man's fortune is being told, he is represented by the king of hearts, Card No. 15, and the queen is the woman in whom he is interested.

In telling the fortune all the cards may be read. Those touching the card representing the subject pertain to the near future, and those farther away concern the events in the more distant future.
